

## 2022 solar container system domestic shipment ranking

How many solar modules have China shipped in 2022?

In 2022, the top 10 Chinese manufacturers have shipped over 240 GW modules globally, up 60% and occupying over 90% of global demand, according to the annual module shipment ranking published by Solarbe and Solarbe Consulting.

Who makes the best solar modules in 2022?

TrendForce has ranked the top six module manufacturers by shipment volume in 2022, with Longi topping the list, followed by Trina Solar and Jinko Solar. JA Solar, Canadian Solar, and Risen Energy rounded out the top six, in a year dominated by large-format modules.

Who makes the most solar panels in 2022?

InfoLink estimated that the top 10 manufacturers shipped around 252 GW of modules, a 166% year-on-year increase. The top four dominated 60-65% of global shipment volume, heightening that the big stays big. The top five module makers in 2022 were Longi, Jinko Solar, Trina Solar, JA Solar, and Canadian Solar.

Which solar modules are the most shipments in 2023?

M10 (182mm) and G12 (210mm) products together accounted for 81% of shipments by the top 10 module makers (excluding First Solar), with M10 taking up the largest share. M6 (166mm) and other formats accounted for around 14%, and n-type modules 4-5%. Manufacturers set ambitious shipment goals for 2023.

How many GW of solar modules are there in 2022?

The threshold to be listed among the top ten has doubled to reach 7 GW. The sales directors of multiple module producers said that the market had boomed in 2022. Most manufacturers have shipped more modules in the first three quarters of 2022 than in the whole year of 2021.

Which solar companies have a good shipment target in 2022?

The manufacturers behind the list, such as Das Solar, Suntech, Huansheng, etc., also saw their overall shipment climb to 7-8 GW in 2022, only a gap of about 0.3-1.8 GW compared to the 10th ranked manufacturer, and they all have very positive shipment targets in 2023.

Who ships the most energy in the world? China's shipments were 47 GWh, accounting for 65%; overseas shipments were 25.4 GWh, accounting for 35%; global energy storage system shipments ...

In 2022, the top 10 Chinese manufacturers have shipped over 240 GW modules globally, up 60% and occupying over 90% of global demand, according to the annual module ...
