

Cartier calibre solar container

This 22mm model introduces a solar-powered movement, discreetly integrated beneath the silver dial. It offers a sustainable approach without compromising the purity of the design, ensuring reliable ...

Louis Cartier created the Tank watch in 1917. A legend was born. The lugs blend seamlessly into the bare edges of the flat vertical brancards, giving the watch its unique aesthetic. The clean, crisp lines ...

The first watches to contain in-house Cartier movements were very high-end. Cartier offered a brand new look and feel to the type of watch that could bear the Cartier name. All these watches had exotic movements and prices were on par with that of some very nice real estate. In 2010 Cartier announced ...
