

FRANKFURT, Germany -- The European Union is adding restrictions to its subsidy program for "green" hydrogen production that effectively lock out Chinese-made equipment as the bloc looks to avoid a ...

The main goal of the study is to assess the environmental and economic sustainability of "solar" hydrogen production in a large-scale PEMWE plant in China, considering the previously ...

By collaborating with China, European companies can bring their technologies and expertise into a market designed for scale, while also ensuring that hydrogen development aligns with international ...

Discover our Mobile Solar Container, offering efficient, clean energy on-demand. Ideal for construction sites, disaster relief, and remote areas, it ensures reliable power anywhere. Boost ...

The dramatic cost reductions achieved in solar photovoltaics (PV) and China's subsequent dominance of these supply chains are often cited as an example of how things might play out in the hydrogen space.

Why Hydrogen Storage Matters Now More Than Ever Europe's wind turbines spinning furiously during a storm while China's solar farms bake under relentless sunshine. What happens to ...

This EIAS policy brief will explore the chances and challenges for EU-China collaboration in the renewable hydrogen sector, emphasising the fields of fuel-cell technology, electrolyser ...

The report positions EU-China hydrogen cooperation as a central driver of global decarbonization, with the potential to significantly accelerate development and deployment of clean energy systems.

How China's Ports Are Leading the Charge China installed over 1,200 solar shipping container units in Q2 2023 alone, primarily for port operations and temporary disaster housing. The Yangshan Deep ...

By 2022, the stark impact was palatable: over 95% of solar panels installed in the EU were imported from China, signaling the near-total erosion of Europe's domestic manufacturing base.

This is why the mobile solar container solutions presented at Intermodal Europe 2025 have attracted international attention. ZN MEOX's Mobile Solar Container is more than a portable ...

Although the total scale of green hydrogen projects planned in China is massive, the current green hydrogen production is not cost-effective, with the production cost per kg of green ...
