

Government subsidies for solar container projects

Why does Germany need a solar-plus-storage subsidy?

That compares to the effective 100% requirement that solar-plus-storage projects used to need in order to qualify for an investment tax credit (ITC) in the US, and still do for Germany's Innovation Tender. The subsidy is needed because BESS co-located with PV are 'not profitable', the government said.

How much does a kWh subsidy cost?

The initial estimate for the subsidy is EUR0.14-29 per kWh of energy discharged. Independent research and consultancy organisation CE Delft has been heavily involved in the analysis of the scheme until now.

What is Sde++ subsidy?

The scheme reimburses the difference between the cost price of renewable energy and the market value of the electricity supplied. For many business solar projects, SDE++ is an important financial support. It lowers the payback period and makes larger installations feasible. What is the SDE++ subsidy? The SDE++ is an operating subsidy.

What is a EUR416 million subsidy?

The funds are part of a EUR416 million subsidy program announced last year to alleviate grid congestion. The authorities in the Netherlands have allocated EUR100 million in subsidies to the deployment of battery storage with solar projects for next year, as the country continues to struggle with a lack of power flexibility and grid limitations.

What is the subsidies overview?

The Subsidies overview lists financial schemes and subsidies by topic. Choose the topic that suits your plans or project idea to see what support is available. This will help you determine which scheme is most suitable for your plans, project, or idea. Please also check out the overview per province.

Do you qualify for a subsidy or scheme?

Whether you qualify for a subsidy or scheme depends on the conditions. Many subsidies have a clear target group and a strict application deadline. So, be well prepared and follow this guide to applying for a subsidy from the government. This increases the chance that you will receive the subsidy. The government also provides funding and loans.
