

How to add capacitors for off-grid solar container

Our complete solar system is finally DONE! Lou goes through exactly how he built our off grid DIY power station to run everything we need in the shipping containers. This shipping container build ...

Picking the best solar panel for your off grid container setup can feel tricky, but you can make it simple by following a few steps. First, think about what you want your solar panel system to do.

As long as you follow the above steps, you can build a truly efficient off-grid solar backup battery system, so that you can have a stable and independent power source in any environment.

NEXT PROJECT: building a roof over this 20" shipping container to support our off grid solar system, store tools, stack wood for our wood burning stove, and collect rainwater for our cabin.
