

# Industrial and commercial solar container recruitment

What does a certified solar installer do?

Certified in solar installation, the candidate excelled in site assessments, system commissioning, and mentoring junior technicians. Since joining, they've consistently delivered high-quality installations, enhanced team performance, and strengthened client relationships, supporting the firm's regional leadership in solar energy solutions.

Who are solar specialist staff?

From solar manufacturers and installers to storage facilities, our track record has seen us place specialist staff across the full value chain in the solar industry: Manufacturers, Developers, EPC Contractors, Utilities, Operators, Asset Managers, Investors and Consultancies.

How can a solar talent pipeline help your business?

To prepare for future demand and minimise the problems caused by skills shortages, businesses must develop a sustainable solar talent pipeline. Our discipline-specific consultants will talent pool the best personnel in the solar market and make them available for your project or business when you need them.

What does a senior solar installer do?

A leading renewable energy firm in Nassau tasked us with sourcing a Senior Solar Installer to lead solar projects across the Caribbean. The role required experience in installing grid-tied, battery, and hybrid solar systems, along with team management and hands-on installation.

What does a solar farm technician do?

Solar farm technicians are the backbone of a successful solar park, offering critical support for creating, installing, and maintaining your solar panels. Keeping your solar panels operational and reliable requires professionals with the on-the-job experience and the right skillsets.
