

Longi green solar container cell

Munich (Germany) 19th June---The world-leading solar technology company, LONGi Green Energy Technology Co., Ltd. (hereafter as "LONGi"), officially announced the new world record ...

Under its mission of "making the best of solar energy to build a green world", LONGi has dedicated itself to technology innovation and established five business sectors, covering mono ...

October 23rd, 2024 - LONGi Green Energy Technology (Hereinafter referred to as LONGi) officially announced a new world record for crystalline silicon module efficiency. According to the latest ...

A group of scientists from Chinese solar module maker Longi has described in a new scientific paper the 27.81%-efficient hybrid interdigitated back-contact (HIBC) solar cell it unveiled in ...

Renewable energy accelerates the replacement of fossil energy With "Solar for Solar", LONGi officially joined the Global Initiatives RE100, EV100, EP100, and will keep building towards achieving 100% in ...

Recently, LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as "LONGi") published a research paper titled "Perovskite-silicon tandem solar cells with bilayer ...

LONGi's innovative infrastructure combines heterojunction technology and BC structure to provide a new solution for improving cell efficiency. This achievement not only represents technological progress, ...

LONGi has announced two technological milestones, as part of the recent SNEC 2025 event. Certified by the US National Renewable Energy Laboratory (NREL), LONGi's large-area ...
