

Can agrivoltaics conserve 585 km² of cropland?

In a half-density PV system scenario, agrivoltaics could conserve 585 km² of cropland with a corresponding crop yield of 4.6 × 10⁵ tons, which is 55 % of the crop yield in a no-PV scenario. A regional distinction is observed, with northern agricultural regions demonstrating a more favorable agrivoltaic yield potential than the south.

What is the National Development & Reform Commission?

The National Development and Reform Commission has been entrusted by the State Council to submit this report on the implementation of the 2024 plan and on the 2025 draft plan for national economic and social development to the Third Session of the 14th National People's Congress (NPC) for deliberation.

Can photovoltaic agriculture solve the problem of overcapacity in China?

Therefore, photovoltaic agriculture provides new opportunity for China's photovoltaic industry, thus not only to solve the dilemma of overcapacity for China's photovoltaic industry effectively, but also to accelerate the development of modern agriculture in China.

How do solar panels improve local agriculture and economic development?

Local residents have converted the land under PV panels into cropland by planting ecological crops such as *Medicago sativa* and *Perilla*, thereby boosting local agriculture and economic development (Xia et al., 2023; Zhang et al., 2024).

Why is photovoltaic agriculture growing in China?

In recent years, photovoltaic agriculture has a rapid development in China due to powerful support policies, flourishing controlled environmental agriculture, policy-oriented rural electrification and promising electric machinery for greenhouse.

Are agrivoltaics a key component of solar PV poverty alleviation?

Consequently, the Chinese government has positioned agrivoltaic projects as a crucial component of solar PV poverty alleviation policies (Zhou et al., 2023). Based on a comprehensive review of agrivoltaics, agrivoltaics is intricately linked to the Sustainable Development Goals (SDGs) proposed by the United Nations.

On January 8, 2024, the National Development and Reform Commission and the Ministry of Finance jointly issued the "Notice on Intensifying and Expanding the Implementation of Large-Scale ...

We will follow the objective of building a service-oriented government that is satisfactory to the people, and do our best to publish information on development and reform policies, ...

Despite the above mentioned limitations, this study provides insights into the impact of large-scale ground-based solar energy development on agriculture in China and the potential for co ...

According to a document released by the National Development and Reform Commission, China aims to accelerate the construction of large ...

On February 9, China's National Development and Reform Commission (NDRC) and National Energy Agency (NEA) jointly published the Notice on Deepening Market-Based Reform of ...

In August 2024, the National Development and Reform Commission (NDRC), National Energy Administration (NEA), and National Data Administration (NDA) jointly released the "Action ...

We must promote reform to gain impetus for development and generate support for development, and continuously enhance people's sense of fulfillment, happiness and security. ...

The Center for Renewable Energy Development (CRED), a major supporting team to the State Development Planning Commission and the State ...

13.The National Development and Reform Commission of China signed the MOU on Jointly Promoting the Third Round of Key Projects in China-Cambodia Production Capacity and ...

The State Council approved the new urbanization implementation plan during the 14th Five-Year Plan period (2021-25) submitted by the National Development and Reform Commission ...

While lauding achievements in energy development, Li Chunlin, deputy head of the National Development and Reform Commission, also pointed out challenges such as inadequate ...

In June, the National Development and Reform Commission (NDRC) issued the 14th Five-Year Plan (FYP) for Renewable Energy, setting out ...

The Energy Research Institute (hereafter, ERI) of the National Development and Reform Commission (NDRC) of China is one of an organization affiliated with NDRC and ...

The National Development and Reform Commission (NDRC) is a macroeconomic management agency under the State Council, which studies and formulates policies for economic ...

In 2012, the National Development and Reform Commission (NDRC) published the Interim Measures on the Management of the Greenhouse Gas Voluntary Emission Reduction Program and the Guidelines ...

National development and reform commission agricultural solar container

To coordinate social development policies with national economic development policies; to organize the formulation of strategies, overall plans and annual plans of social development; to participate in the ...
