EEX's Nordic power product portfolio consists of System Price futures as well as zonal futures for all Nordic bidding zones, enabling market participants to choose the most suitable tools for their hedging needs, and ultimately improving liquidity across these markets. EEX Nordic Power Futures

How is NTC limited by the Nordic TSO?

NTC limited by Nordic: ATCs on external borders may be limited in production by the Nordic TSOs. This limitation will be handled by Critical Network Elements (CNEs) in Capacity Calculation Region (CCR) Nordic. The constraint on the external borders is therefore increased to the limit set by the external neighbouring TSO.

Does FB capacity change in the Nordic region?

However, flows on the nine borders between the Nordic region and the rest of the SDAC (Core/Baltic) can change as a result of FB capacity calculation in the Nordic region: Nord Pool plans to publish these results with an explanatory note on a bi-weekly basis.
