

Prefabricated cabin solar container system factory

What is a prefab container cabin?

Prefab container cabins are highly flexible and support customized size, material and appearance design according to needs to meet diverse scene applications. Porta cabin houses are a multifunctional solution for project camps and commercial spaces with excellent mobility.

How a porta cabin container is made?

The main beams and columns of the porta cabin container are formed by cold bending with 2.3 mm thick galvanized steel. The surface treatment is completed by electrostatic spraying. The galvanized layer provides basic corrosion protection, and the spray coating gives the structure a unified visual texture.

What is the main structure of a prefab cabin?

The main structure of the prefab cabin is stable. The primary consideration for large camp construction is safety. The portacabin can be stacked up to 3 floors. The main structure and the density of the purlins of the bottom frame determine the load-bearing capacity and overall safety of the floor.

Who is custom container living?

Founded by Robert Wagoner in 2015, Custom Container Living is dedicated to delivering exceptional, environmentally conscious homes. From solar power integration to innovative water systems, our homes are designed to help you reduce your reliance on external resources and thrive off the grid.

What is a portable cabin container?

With modular characteristics and rapid deployment capabilities, portable cabin containers are widely used in on-site offices, meeting rooms, staff dormitories, schools, hospitals, laboratories, refugee camps, toilets, storage rooms, etc. It has become the preferred solution for temporary modular buildings.

Where can K-home build a porta cabin?

K-home specializes in providing porta cabin construction for construction sites and large camps. Our projects cover Mali, Ethiopia, Kenya, Nigeria, Guatemala, Guyana, Australia, Philippines, Singapore, Japan, Indonesia, Myanmar, Thailand, France, Belize, etc.
