

Research on the problems and countermeasures of oilfield solar container

2. An analysis of major scientific problems and research paths of Gulong shale oil in Daqing Oilfield, NE China];SUN;Petroleum Exploration and Development,2021 3. Geological characteristics and key ...

Based on literature research in combination with the practice of CO₂ flooding and storage in Jilin Oilfield, this study assesses the key problems in CO₂ flooding and storage, proposing ...

We designated the first elemental explanatory systematic modeling of container threat levels along with its preparatory mitigation strategies, that aids researchers and promoters to ...

The direction of further research on oxygen corrosion in oilfield development is proposed: 1Prediction and control of corrosion in oxygen environment need to be further studied to ...

By referring to experience and enlightenment of "shale revolution" in North America, and focusing on key factors such as resource, technology, management, cost and benefit, five countermeasures and ...

After CO₂ is injected into the reservoir, it will react with the reservoir and fluid, the problem of CO₂ recovery or overflow will occur, so the dynamic monitoring and safety evaluation of ...

Furthermore, the targeted countermeasures and suggestions are proposed by focusing on the challenges faced by the development of oil and gas industry at present, such as the extremely great ...

In this research field, it is also necessary to consider the energy source and consumption (e.g., natural falling aeration, aeration and effluent recirculation driven by solar energy ...

????????????,????????????????????????????????,????????????????????,????????????????????,????????? ...

Future research directions and suggestions for field test are proposed to provide theoretical and technical references for the efficient development and production of Gulong shale oil.

With an experienced R& D team, we are able to design and manufacture solar power pods with superior performance and cost-effectiveness according to the specific needs of our customers.

In order to solve the key technical problems of environmental protection in the drilling process of Shengli Oilfield, theoretical research, equipment development, technical breakthroughs, and integrated ...

Research on the problems and countermeasures of oilfield solar container

This study investigates the current situation of foreign salt cavern oil storage, reveals the problems of China's strategic oil storage, analyzes the advantageous conditions of China's salt cavern oil storage ...

Due to the international economic growth reliance on petroleum, corrosion is a critical problem for refineries and it has attracted considerable attention in recent times. There is a plethora ...

Download Citation | Innovative Practice and Development Countermeasures of Oil and Gas Cooperation Along the Belt and Road with the Background of Carbon Neutrality | Considering ...

Abstract. Water injection, air injection, air foam injection, and in-situ combustion technology are used step by step in the later period of oilfield. Oxygen corrosion caused by different development methods ...

The carbon capture demonstration projects and oil field injection experiment carried out presently in China are funded by enterprises from fundraising and national science and technology ...

Water injection, air injection, air foam injection, and in-situ combustion technology are used step by step in the later period of oilfield. Oxygen corrosion caused by different development ...

Research on the Problems and Countermeasures of Sustainable Development of Green Building Economy in China Xuefeng Li and Lijuan Song Abstract During the 13th Five Year Plan period, ...

Research on the Problems and Countermeasures of Environmental Monitoring Work in Environmental Impact Assessment Yuchen Xiang Jiangsu Environmental Engineering Technology Co., Ltd., Nanjing ...

This paper reviews the basic research means for oilfield development and also the researches and tests of enhanced oil recovery (EOR) methods for mature oilfields and continental ...

Research on the problems and countermeasures of oilfield solar container
