

Slovakia solar container heating equipment manufacturers

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea - to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

Who makes solar thermal collectors?

At present, THERMO/SOLAR is the largest independent company producing solar thermal collectors in Europe. From 2015 the company supplies complete photovoltaic systems. The assembling of these systems is based on the experience gained in the field of solar thermal collectors.

What is BIPV & how does it work in Slovakia?

From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV). We led the way with the first-ever 400kWh Battery Backup System, even before container-based battery systems became mainstream.

Who is thermo/solar Ziar?

THERMO/SOLAR Ziar is one of few producers in the world with all main manufacturing processes fully integrated in a single production plant (production of selective conversion layer and absorbers, sheet pressing of collector casings, final assembling of collectors).

How a solar heat system works in a social residence house?

The installation in a social residence house in the town of Slatinany (Czech Republic) is also very interesting from technical point of view, since the solar heat provides 87% of the space heating and the domestic hot water supply. This system includes a seasonal heat storage tank of 1 100 000 litres of water and a heat pump as a backup.
