What is a shipping container solar lighting kit?

Shipping Container Solar Lighting Kits provide lighting in shipping containers and storage areas with 2 days of battery technology for cloudy, rainy, or snowy days with 8 hours per day of run time.

How do shipping container lights work?

They are mounted on the twist-tight lock with magnets to provide external lighting around the Shipping Container. We also offer vapor-tight and explosion-proof LED container lights and LED Floodlights. Shipping containers are not very large spaces with relatively low ceiling heights.

How do I light a shipping container?

A good secondary option is to have Solar kit-powered LED Floodlights shining into the container. They are mounted on the twist-tight lock with magnets to provide external lighting around the Shipping Container. We also offer vapor-tight and explosion-proof LED container lights and LED Floodlights.

How many LED lights should a shipping container have?

If it's a more significant 40 FT container, 3 or 4 fixtures might be the solution. The number of hours a day someone will be in the Shipping Container, and the type of work they will do inside the container will also help determine the type of LED solution.
