

South Korean solar container battery suddenly caught fire

What happened at a South Korean lithium battery factory?

A deadly fire at a South Korean lithium battery factory in June broke out as the company raced to meet a deadline without taking action to address signs of dangerous quality failures, police said.

What type of lithium battery caught fire in South Korea?

It was a lithium metal battery, and the workers lost consciousness and succumbed within seconds. The specific type of lithium batteries that caught fire at the factory in South Korea were non-rechargeable lithium-thionyl chloride batteries (a lithium metal battery). As lithium metal is reactive with water, South Korea

Why did a South Korean lithium battery manufacturer apologise?

HWASEONG, South Korea, June 25 (Reuters) - The CEO of a South Korean lithium battery manufacturer apologised on Tuesday following a massive factory fire that killed 23 workers, but said the company had complied with all required safety precautions and training.

What happened in South Korea?

South Korea is a leading producer of lithium batteries, which are used in many items from electric vehicles to laptops. Fire official Kim Jin-young said 18 Chinese, one Laotian and two South Korean workers had been confirmed as among the dead. A final body had yet to be identified, and there are fears at least one more person may be missing.

What happened to Aricell batteries?

On 24 June 2024, in Hwaseong, South Korea, a lithium battery factory owned by Aricell caught on fire after several batteries exploded. The fire killed 23 workers and wounded eight more, mostly Chinese nationals. Aricell manufactures non-rechargeable lithium-thionyl chloride batteries.

What happened at a lithium battery factory?

The fire on Monday, which began at a factory with 35,000 lithium batteries, produced thick smoke that spread quickly and the workers inside the second-floor location likely lost consciousness and succumbed within seconds, fire officials said. The Reuters Daily Briefing newsletter provides all the news you need to start your day. [Sign up here.](#)
