

# Speech content of photovoltaic solar container work conference

Last year, I said here that "what the photovoltaic industry is experiencing is not a cyclical iteration of the past three or five years, but a preview before the advent of the era of great changes in the ...

What's Inside Our Mobile Solar Power System? The set of components inside our folding PV power pod includes solar panels, batteries, inverters, racking systems and other auxiliary components that work ...

The conference is high-level, large-scale, rich in substantive content, and broad in coverage, having become one of the top three international events in the PV and energy storage industry globally.
