

Sunshine solar container investment code

What is the Sunshine Fund?

The Sunshine Fund addresses this challenge with an integrated strategy focused on scalability, reliability, and domestic supply chain resilience. We invest in utility-scale solar and battery storage, now the most cost-effective, cleanest, and fastest-growing energy technologies globally.

What is the Sunshine Fund's mid-term pipeline?

The current mid-term pipeline consists of multiple 150 MWac solar and 150 MW storage projects across several states, with initial deployments expected to begin within 12 months. Marcus leads the Sunshine Fund's vision and strategic direction, bringing his expertise as a successful serial entrepreneur and impact investor.

What is the Sunshine platform?

The Sunshine Platform is our proprietary technology that streamlines clean energy. Sunshine Platform enables businesses to invest in renewable energy with the potential for double-digit financial returns, while automatically managing Renewable Energy Certificate (REC) purchases to reduce Scope 2 emissions.
