

What are the patents for concrete solar container

The present disclosure describes a solar energy storage system. A storage container is provided, comprising a base having a compartment defined by a planar exterior surface and a planar interior ...

The design negates extensive land leveling, offering a cost-effective, typhoon-resistant structure that minimizes the need for terrain modification, streamlining the installation of large-scale ...

The at least one plug receptacle is electrically coupled to the battery. The plurality of solar panels are configured to receive sunlight and convert to solar energy for storage in the battery and supply ...

Solar powered portable food container Abstract A portable food container is cooled by a solar powered refrigeration unit and includes a thermoelectric power unit and heat pipes so that the container will be ...

A heating system including at least one thermal battery including a storage container for holding a fluid, an outlet fluid conductor through which the fluid exits the storage container, an inlet ...

? ??? ??? ??? ?? ???? ??? ???? ??? ??? ?? ??? ???? ?? ??? ??? ???? ???? ?? ???? ??? ???? ??? ? ?? ??? ???
...

The present invention relates to storage and protection of electronic devices, and, more particularly, is concerned with a solar-charging storage container apparatus, such as for rechargeable mobile ...
