The issues of rough surface morphology and the incorporated additives of the electro-deposited Cu layers, which exists in electrodeposition-based processes, is one of the major obstacles to improve ...

Alkali metal post-deposition treatment (PDT) is a key factor to approach high efficiency in Cu (In, Ga)Se₂ (CIGS) solar cells. In addition to single alkali element treatment, co-doping of light and heavy alkali ...

BEIJING -- A Chinese research team has realized the fractional quantum anomalous Hall state of photons for the first time by using an independently developed quantum experimental ...
